#### **Denominational Base is Shrinking**

- Prior to COVID-19 and disaffiliations, worship attendance was rapidly declining at an increasing rate. Worship attendance in 2019 declined by 4% from 2018 and was 24% lower than 2009.
- Impact of disaffiliations expected to be 20%+. Latest annual conference survey in July 2022 projected 21.3%.
- Combined these factors will significantly impact the both the local church and annual conferences.

#### Recommendation: Apportionment Sustainability Taskforce

We believe a new future of The United Methodist Church must be built on a renewed local church foundation. Therefore, we recommend a reduction in general Church apportionment support of 25% by reducing the base percentage.

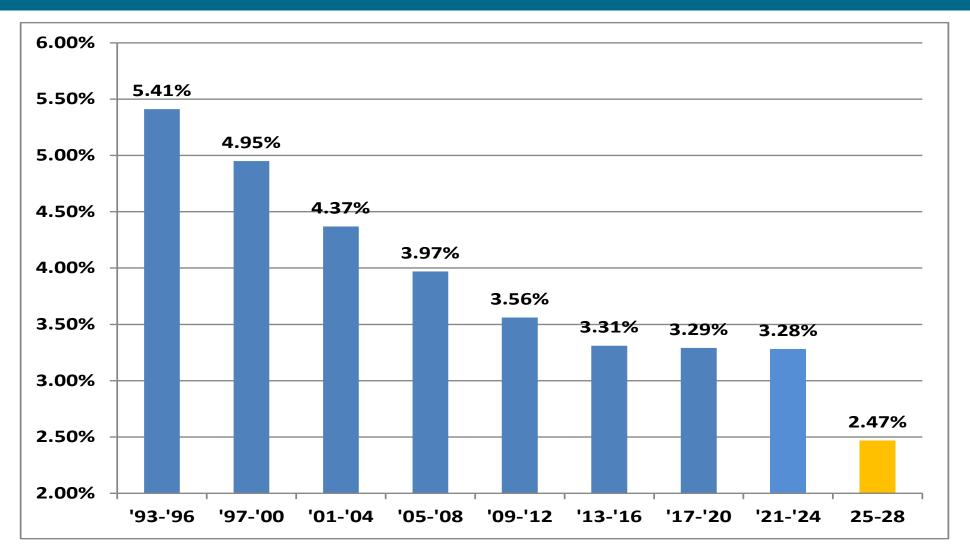

#### A 25% reduction:

- Causes us to imagine and dream about what the church of the 21st century is all about.
- Creates a more flexible and nimble system and ushers in a new paradigm.
- Recalibrates the connection and encourages collaboration at the general Church level.

#### Rate of Apportionments is sharply declining

- GCFA board recommends to reduce the Base Percentage by 25% for the 2025-2028 quadrennium.
  - (This is the percentage rate applied against local church net expenditures to calculate general Church apportionments.)

#### Base Percentage Trend & Recommendation for 2025-2028

GCFA Board approved recommendation to reduce the Base Percentage by 25% in 2025-2028

Overall General Church Apportionments declining by 40%

Shrinking Denomination

Reduction of Base Percentage
